The eclectic mosaic that is Mykonos is made up of pristine beaches, elegant boutiques, fine dining restaurants, rowdy bars and dazzling nightclubs all packed onto one tiny piece of land, a mere 15km long at its widest point. Partying is a round-the-clock affair here, happening against the backdrop of scenic whitewashed houses crowding up the old town and iconic windmills perched atop the hills overlooking Little Venice, Mykonos Town’s most charming neighbourhood.

NOTE: This Guide has been limited to 20 points of interest per section. For the full guide, please visit ArrivalGuides.com
The tiny Cycladic island of Mykonos sprung to blossom as a tourist destination in the 60s and 70s, when it was first discovered by global glitterati and became featured in magazines as the new hot place to be for the "it" crowd. The island today has kept little of its past exclusivity (although celebrities do make appearances at some of its fashion boutiques every now and then), and welcomes diverse crowds every summer season. July and August are the busiest, with late spring and early fall allowing visitors to discover a quieter, more tranquil side to the island.

During high season, avoid the narrow streets of Mykonos Town (also referred to as "Hora", or "Chora") during daytime to escape cruise ship crowds and venture out to one of the island's many beaches, or try scuba diving under careful supervision of professionals from the island's many dive centres.

The island, along with its tiny neighbour of Delos, featured prominently in Greek mythology and was first settled in 11th century BC. Excursions into the past may be made via the island's several tiny museums and the well-maintained Archaeological Site of Delos.

DO & SEE

The entire island of Mykonos is only 15km at its widest point, which makes a thorough exploration of everything it has to offer a task not too daunting. Start off by strolling through Little Venice, the waterfront bar and restaurant strip of Mykonos Town, and make your way up into the maze of narrow streets dotted with shops and eateries. Take a photo against the backdrop of the island’s iconic windmills, and make the most of its many splendid beaches. Diving opportunities abound for those willing to descend underwater.

**Little Venice**

This scenic neighbourhood is a delight both day and night: stroll along the waterfront and get a feel for the town while taking in the distinct local architecture, sit down for a seafood lunch or dinner with a view (over the blue waters and iconic hilltop windmills), or explore the bar scene after sundown.

Beaches

If beach parties are what you're after, Mykonos will not disappoint. Check out the famous Paradise Beach and/or its younger sibling Super Paradise Beach for some of the hottest waterside bars and clubs that never sleep (dancing is often in full swing in broad daylight!). For a more relaxed, quieter experience head to Elia, Platis Gialos, Ornos, Panormos, Paranga or Agios Sostis Beaches - the latter is a true hidden gem tucked away far from the frenzied crowd in the island's north.

The Windmills

The island's iconic landmark are its whitewashed round windmills (or Kato Milli), which make for some incredible postcard-ready photographs. Take a short hike up the tiny hill in the town's south and enjoy a closer look at these now-monuments formerly used for grain grinding.

Archaeological Site of Delos

A UNESCO World Heritage Site, the island of Delos is a must-visit for history and archaeology enthusiasts. The site holds some curios remains of ancient civilisations: a former amphitheatre, historic houses with mosaics, temples and the famous Terrace of the Lions. Do not skip on the museum, either - it contains some artefacts dating as far back as the 25th century BC.

**Castle Panigirakis**

Take a break from the hustle and bustle of the town centre at the Panigirakis Castle, which overlooks the Chora. History tells us that its construction was initiated by Marcos Panigiarakis, who intended for it to become a symbol of his love for his wife Ismini. The castle has now been transformed into a luxury hotel and offers unbelievable views of the picturesque Mykonos Town and of the bright blue waters of the Aegean Sea.

**Áno Merá Village**

Áno Merá Village, 8 km away from the capital, is both the island’s second biggest town and hidden gem. The town houses the Panayia Tourliani Monastery built in the 18th century. Here you will also find some local shops, cafes, restaurants and more. This tranquil village far from the tourist crowds is definitely worth a visit.

**Agia Anna Beach**

With its golden sand and aquamarine waters, the Agia Anna Beach is a unique spot to soak up the sun, swim or snorkel. From this exotic beach you can admire the modest church of St. Anna and the small chapel of St. Nicholaos.

**Boat Tours and Cruises**

Soak up the sun, swim and snorkel in the turquoise waters of the Aegean Sea by simply booking a catamaran for a unique experience far from the crowded streets of the town. Tours normally last either a half or full day, and include visits to nearby islands, stops for snorkelling and swimming, and even lunch or dinner on board.

One provider that offers boat and catamaran tours is Mykonos Cruising:

**Lena’s House**

DINING

The sheer number of eateries for an island as small as Mykonos is dazzling, with the majority of restaurants and tavernas concentrated in Mykonos Town and along the waterfront of Little Venice. Mykonian cuisine is defined by its pork and fried fish dishes (red mullet and skate are most common), octopus meze (small tapas-style plates), and the use of goat milk and onions in cooking. The Greek classics (such as moussaka, for example) are readily available on most menus.

M-eating

Tucked away in the windy maze of the town’s streets is M-eating, an upscale dining establishment that serves top-notch Mediterranean cuisine.

It’s hard to go wrong with your order at this award-winning restaurant, but opt for sea bass or veal and you will surely not be disappointed.

**BARS & NIGHTLIFE**

The party never dies in Mykonos, where day-time beach entertainment often precedes the "classic" nightclubbing experience. Some of the loudest, rowdiest beach venues are to be found at Psarrou Beach (popular with Greeks), and the Paradise/Super Paradise Beaches. In Mykonos Town, pre-sunset pastimes are much more tame, with relaxing waterfront bars of Little Venice getting packed with patrons savouring slightly overpriced cocktails in the evenings. At night, the island's many clubs open their doors to those still ready to paint the town red.

Mykonos has its own airport, direct flights are available from multiple European destinations. The best time to visit Mykonos is in September and October. During these two months the weather is still warm and water temperature is still perfect for swimming. **Ferry**

Most ferries run between the months of April and October. Direct connections to Mykonos via high speed ferries and boats are available from Piraeus and Rafina (check in advance whether your ferry arrives at the old or new port, this may vary by company). Ferries also run to and from other nearby islands in the Cyclades.

There are two bus stations at the opposite ends of Mykonos Town (these are a 20 minute walk away from one another). Bus frequencies may very depending on the time of year (more buses run during high season); intervals are usually somewhere between 30 min and an hour. Tickets may be purchased from the driver directly or in advance at ticket machines and tourist shops.

Small fishing boats are an alternative means of transport - these circulate between the main beaches of the island.
